FOR EVOLUTION

HISTORY

Art For Evolution (AFE) is a nonprofit charitable organization founded in 2013 in Miami, Florida by ecological artist [Analia Bordenave](#).

Since then AFE provides education about solutions to environmental problems and provides safe alternatives to threats to the environment through Ecological and Participatory Art.

MISSION

Art For Evolution's mission is to strengthen the community and the environment through art.

AFE uses ECOLOGICAL ART and PARTICIPATORY ART as tools to raise awareness of the habits that negatively impact the planet, and shift them toward creating a positive and lasting (green) mark on the planet.

VISION

We believe that art has the power to change the world!

With our BLUE MARK PROGRAM, we want to involve the community in participatory/ecological big-scale art. The result will be significant Eco-Artworks that will create a positive impact on the planet.
DO YOUR SMALL PART FOR A BIG CHANGE AND LEAVE YOUR MARK!

FOUNDER &
PRESIDENT
Analia Bordenave

Analia Bordenave's conceptual Art seeks to elevate the beauty bestowed upon each of us and our Planet. Her art by her is expressive and participatory. An interaction. An intervention. An act of transformation. Her contemporary approach uses various materials and modalities to convey unique to each individual and common to humanity. Through her art, everyone has something to give and receive. For Analia, beauty is in the eye of the beholder.

With paintings and NFT collections, Analia surprises viewers by discovering more with her AR art, and with Eco-Art she empowers the beauty and essence of nature in humans and on the earth. Analia has been using her conceptual art as a medium to promote positive change in the world for many years now. Analia believes that art can change the world!

ART CORAL REEF

By *Analia Bordenave*

LARGE SCALE ECO-ARTWORKS

CORAL RESTORATION AND CONSERVATION

NEW REEF CORAL PARK TOURIST ATTRACTION

OUR GRAY MARK IN THE OCEANS

"Our marine habitats find themselves on the frontlines of the planet's greatest conflict—one that threatens countless species and the health of future generations—the fight to avert a climate crisis" (CNN).

HOW DO WE POLLUTE?

- **Garbage, including plastic debris (bags, straws, cutlery, six-pack rings, water bottles, etc.)**
- **Sunscreen and other topicals**
- **Oil seepage**
- **Sewage**
- **Agricultural and aquaculture runoff**
- **Industrial waste**
- **Carbon dioxide**
- **Noise**

WHY PROTECT OUR OCEANS?

Because the oceans are essential to life on Earth.
The ocean is the largest ecosystem on Earth; it is the Planet's life-support system.

Oceans generate 50% of our oxygen and contain more than 97% of the world's water. Living oceans absorb carbon dioxide from the atmosphere and reduce climate change impacts.

Protecting the oceans in this crucial time should be considered highly important, as our lives quite literally depend on it.

WHY PROTECT THE CORALS?

The world has lost over half of its coral reefs since 1950 due to climate change, overfishing, and pollution.

Coral bleaching events, which are caused by warmer ocean temperatures, have, over the last 40 years, become five times more likely to occur all over the world.

By 2050, nearly all the world's reefs will be at risk.

(Information provided in part by NOAA and Carbon Brief)

Because you and the future of all those you love depend on healthy oceans, we want a better future for our oceans and the people who depend on them.

Interactive Art Installation

The "BLUE MARK LABYRINTH by AB" is an underwater art installation used to grow corals. This interactive art installation will house around the small pieces of corals, creating a unique marine labyrinth involving the spectator so everyone can enjoy diving. Everyone is welcome to visit this coral nursery online as well as in-person by scuba-diving.

”

Corals Growing in an Art Installation

During their time in our art installation corals are carefully maintained by regular cleaning and removal of invasive species. Our main goal is to improve genetic diversity and increase numbers of corals, while also creating blue-green jobs in an artwork.

”

Ecological Coral Art Park

After 9 months to 1 year, when the samples reach the desired size they are removed from the BLUE MARK LABYRINTH and are attached to the BLUE MARK PARK by our experts.

The new reef will be constituted with different species forming a print that will become a park to be visited by the public. Everyone can follow the growth of their coral by using coordinates of Google Maps, Photos, Videos, and visit the BLUE MARK PARK REEF.

”

New Reef with Ecological Art

BLUE MARK PARK creates homes for sea life as artificial reefs. From tourism to marine recreation, BLUE MARK PARK play an important role in local economies. They're also essential to the ocean's health, providing habitat for a variety of marine life and increasing coastal resilience to storms. Additionally, BLUE MARK PARK provides an opportunity to educate by creating awareness and encouraging commitment to protect the oceans making it a top diving destination

”

**BLUE
MARK
PARK**
ART CORAL REEF

BLUE MARK REEF ART PARK reef benefits include:

Habitat: Will provide a home for over 1 million different marine species.

Income: Not only do coral reefs support life, but they also support the economy with a value of roughly \$2.7 trillion every year.

Coastal protection: Coral reefs act as natural breakwaters, thereby limiting shoreline erosion and beaches, coastal homes, and farmland. This protection saves roughly \$9 billion in damages every year.

Medicine: Coral reefs also provide medicinal benefits, as they have pharmaceutical compounds that can be used to treat human infirmities.

(Information provided by International Year of the Reef [IYOR])

"Sadly, despite how important these beautiful ecosystems are, they are under threat from stressors. Protecting them for future generations will not only mean our children and grandchildren might have the chance to experience the wonder of these underwater ecosystems but that the people, plants, and animals that rely on them will also survive and thrive."

Kevin Gaines

Kevin brings his background in biology and hands-on coral conservation science to the BLUE MARK ART PARK. As a Florida native, he grew up surfing, fishing, snorkeling, and scuba diving the coral reefs of the Florida Keys and the Bahamas. Because of this, he has a thorough understanding of the importance of healthy coral reef ecosystems and their role in the future of our planet. Through his work in aquaculture, he applied land-based coral fragmentation techniques and became the first person in the USA to take a coral fragment from a reef and successfully grow and transplant it back to the reef's second-generation coral colonies. He also co-developed the "Coral Tree Nursery," which has become the most viable and globally adopted method for coral restoration practitioners to create successful nurseries for coral conservation.

”

OUR BENEFITS

ECO ART FOR AWARENESS

AFE uses art to raise awareness to generate eco-ethical habits, protect our oceans and natural resources, and respect the Planet. Be part!

CORAL RESTORATION+ CONSERVATION

BLUE MARK LABYRINTH REEF

Our coral nursery will be a touristic attraction and an important component of marine conservation, providing a collection of species that will create the new coral art park.

CORAL REEF ART PARK ATTRACTION

BLUE MARK REEF ART PARKS

The new reef, created with different species forming a print, becomes an underwater art park to be visited by the public.

MUCH FUN FOR EVERYBODY!

World Premiere

You can leave your Blue Mark for the Oceans a living legacy for future generations.

Dear Applicant:

We are pleased to inform you that upon review of your application for tax exempt status we have determined that you are exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code. Contributions to you are deductible under section 170 of the Code. You are also qualified to receive tax deductible bequests, devises, transfers or gifts under section 2055, 2106 or 2522 of the Code. Because this letter could help resolve any questions regarding your exempt status, you should keep it in your permanent records.

Organizations exempt under section 501(c)(3) of the Code are further classified as either public charities or private foundations. We determined that you are a public charity under the Code section(s) listed in the heading of this letter.

For important information about your responsibilities as a tax-exempt organization, go to www.irs.gov/charities. Enter "4221-PC" in the search bar to view Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, which describes your recordkeeping, reporting, and disclosure requirements.

Sincerely,

Director, Exempt Organizations
